Client: Kent County Council

Grontmij provides consultancy services across the globe from our network of international design studios.

We are a 100 strong team of landscape architects and urban designers working across the group's European office base. Together we have a wealth of knowledge, expertise and experience of bringing projects to life through elegant, enduring and creative design.

We have a design philosophy that focuses on the creation of memorable places with a distinct identity, clear spatial form and sensitive integration within the local context. Our solutions are practical, robust and recognise the changing demands made on the external environment. We believe that the planning and design of the public realm plays a critical role in the successful development of our towns and rural areas and we strive to create enjoyable, high quality spaces.
